

Electric Salamander Change in burnt color changes dishes, makes more delicious!

You can quickly make deliciously brown color on grill menus such as gratin, pizza, hamburger steak, and roast fish. You can adjust delicate burnt color according to menu by adjusting distance between heater and cooking ingredient.

Electric Salamander <silica glass tube heater>

- Stepless height-adjustable heater at the head of grill. You can freely adjust the heat.
- Output power of heater is adjustable to three levels.
- Design that gives a soft impression taking advantage of roundness.

Image of temperature distribution

Heat from the center of ingredient evenly which beautifully and evenly browns its surface.
