

Lift up without missing a delicious fried time! Subtle difference of fried condition is performed by simple operation.

Electromagnetic auto lift fryer is compatible with the specification of the description of the Minister of Land, Infrastructure and Transport Secretariat Government Buildings Department supervision "public building construction standard specifications" (machine facility work).

Lift up at the best timing for tasty. The melody will notice you the end of cooking.

The fry baskets lift up automatically at the set time. It is effective for labor saving, because even part time workers can cook easily. Electric melody will notice you when the end of cooking comes closer, which can prevent missing the best timing for fresh fried. Also, if you want to fry more, you can extend for each 10 seconds with one-touch operation.

Lift type which is compact and excellent cooking capacity.

Since you can raise and lower the lift in a minimum of space, a fry basket can be enlarged up to the size of oil tank. Compared with other products of equivalent oil amount, you can cook a lot of ingredients at the same time. The depth is also compact with 670mm.

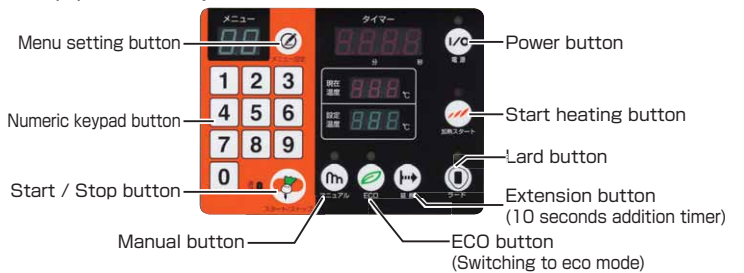

Eco mode realizes energy saving reducing the oil oxidized

Right after pushing ECO button, it is switched to eco mode which keeps the oil temperature lower than the set temperature. That realizes not only preventing oil oxidized but also energy saving. Also, setting is available to switch to eco mode automatically when constant time passes over without cooking. Please contact us for details.

99 menus can be registered! "Double Frying" can be programmed!

Cooking program can be registered up to 99 menus. Not only the oil temperature (Between 100 to 220°C) and cooking time (Between 0 sec to 99 min 59 sec), but also step cooking such as "Double Frying" can be programmed in advance. Your original taste and labor saving can be realized at the same time. Melody for the end of cooking can be chosen from 7 patterns. Therefore, it is easy to recognize the equipment when you use several units.

Equipped with safety features in case of abnormalities

An additional safety function notifies the user with a buzzer and flashing lights when an abnormality is detected inside the device. This function enhances safety.

Useful "Melt Function" to use the solid oil. (Lard heating)

Melt function (lard heating) to gradually dissolve solid oil is equipped. It is very useful when you use solid oil such as lard.

Safe with overheating prevention mechanism.
